

Arizona Oversize/Overweight (OSOW) Permit Process

This document outlines the permit application process, compliance requirements, and routing rules for Oversize/Overweight (OSOW) vehicles operating in the state of Arizona.

Step	Description
1. Application	Apply online through the Arizona DOT (ADOT) ePRO system or via permit service.
2. Review	ADOT reviews vehicle configuration, axle weights, and load details.
3. Fees	Fees are determined based on trip type, load size, and weight.
4. Routing	ADOT assigns a route considering highway restrictions, construction zones, and clearances.
5. Permit Issuance	Electronic or paper permit is issued with specified travel conditions.
6. Compliance	Driver must carry the permit and follow all restrictions, including escort and travel time requirements.

Notes: - Arizona offers single trip, 30-day, and annual permits depending on vehicle and load type. - Travel is restricted during peak traffic hours in certain metro areas. - Escort vehicle requirements vary by load width, height, and route complexity.
